MILK STORAGE REFRIGERATOR

From conception to production, the Milk Storage Refrigerator line was designed to be versatile, improve efficiency, and have ease of maintenance. The unit features a removable refrigeration cartridge and a robust design that will withstand rugged use.

APPLICATION

The superior design of our products encompass quality, user comfort, as well as aesthetics. It is our interest that our Milk Storage Refrigerators not only look pleasing, but additionally provides function and service while complimenting the adjoining equipment in the service area.

CONSTRUCTION

To compliment our design, we incorporate quality materials assembled by true craftsmen. Our use of heavy gauge type 304 stainless steel throughout inhibits corrosion and provides the best in sanitary conditions.

EQUIPMENT SPECIFICATIONS
